

RENOIR - FREE STANDING

Pierre-Auguste Renoir was a French artist who was a leading painter in the development of the Impressionist style. As a celebrator of beauty, and especially feminine sensuality, he is quoted to say, "for me a picture has to be something pleasant, delightful, and pretty – yes, pretty. There are enough unpleasant things in the world without us producing even more." In keeping with his sentiments, the Renoir tub is a delightful and elegantly pretty addition to any bathroom.
