

### Features

- Undercounter center sink installation
- Solid aluminum rust-free space frame construction
- Plumbing clearance drawer design
- Full extension aluminum drawers with slow-close
- Shatter-protected white glass drawer bottoms
- Includes six removable glass bins
- Uniquely designed ergonomic full-length concealed pull
- Vanities are modular and can be ganged to fit a variety of desired widths; a ganging kit ensures proper frame and drawer spacing
- Integrated night light in handle provides soft light to illuminate drawer interiors
- Three drawer unit: 12" (30.5 cm) left drawer, 24" (61 cm) Sink Drawer (SD) center, 12" (30.5 cm) right drawer
- Center section is not a drawer, but a false-front for undercounter sink installation
- 48-1/2" (123.2 cm) W x 7" (17.8 cm) H x 21-5/8" (54.9 cm) D
- Vanity includes side kit which accounts for 1/2" (1.3 cm) of total vanity width

Centerline location	Centerline of sink/faucet to be located at 24-1/2" (62.2 cm) from left edge of countertop
Sink installation	Undercounter or ITB

## Installation Notes

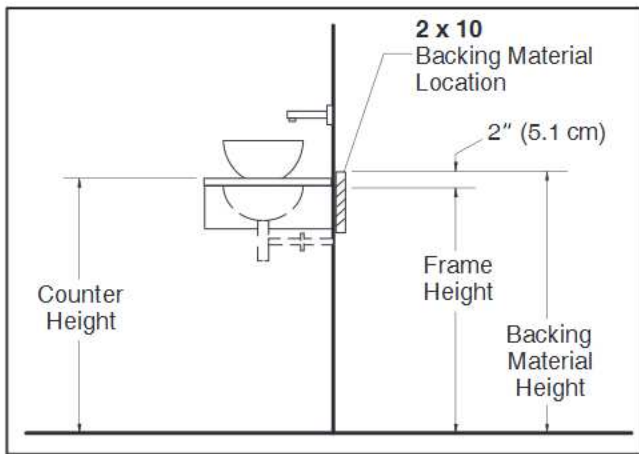

Install this product according to the installation manual.

Framing, plumbing, and electrical details can be found on pages 6-8 of the Vanity Series Installation Manual (209-1126).

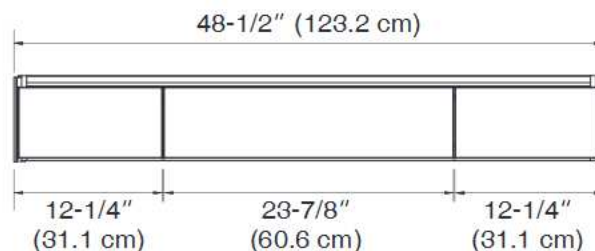

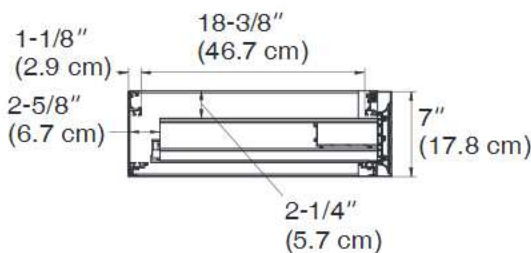

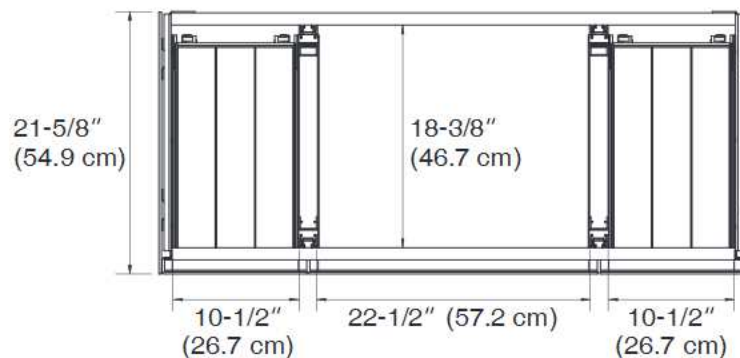

The vanity series needs special site preparation. Do not install vanities until all framing, plumbing and electrical options rough-ins have been completed and wall surface has been finished. We recommend using the services of a professional installer. Observe all the local building codes.

Models with night light option or electric accessory should have a GFCI protected outlet located behind the vanity. An optional wall switch can be used. See Vanity Installation Manual for determining outlet location.

The vanity series are modular and can be mounted individually or ganged together. When ganging two vanities, the total dimension is the sum of overall vanity minus 1/2" (1.3 cm):  
 $48\text{-}1/2'' (123.2\text{ cm}) + 48\text{-}1/2'' (123.2\text{ cm}) - 1/2'' (1.3\text{ cm}) = 96\text{-}1/2'' (245.1\text{ cm})$ .

Counter Height less Counter Thickness =  
Frame Height
