- ZigBee Light Link RGBW Controller

**Environment:**

- Not suitable for outdoor use.
- Not suitable for use in a steam room.
- Not suitable for use in chlorinated or salty environments.

**Technical data:**

- Recommended control unit: xTool
- To be provided by the customer: Zigbee Gateway
- Observe the regulations concerning protected zones specified in DIN VDE 0100, Part 701 (IEC 60364-7-701).
- Water softening device recommended
- For choosing the drainage, taking into consideration the output of items in the shower, the specific demand needs to be assessed.
- In order to select the optimal device for the hot water tank, the individual demand profile must be determined. This includes other drawing-off points and how frequently the rain panels will be used.
- Dornbracht recommends consulting a systems integrator.

**Notes:**

**To meet the North American plumbing standards, this application must be installed with a diverter (35 203 970-900010, 3-way diverter rough included and required for more restricted states).**
