What is Eco-Lapistone™?

Eco-Lapistone™ is made with plant-based material in place of fossil resins. It is 30% lighter than original Lapistone™ and 100% recyclable and restorable. With a luxurious velvety texture and consistent color throughout, the non-porous composition makes these tubs exceptionally strong as well as naturally hygienic and stain-resistant. The superior high-heat retention properties of Eco-Lapistone™ reduce water usage, and its production and delivery utilize less energy, further minimizing its carbon footprint.
